

To read the ebook on your e-reader, desktop, or laptop computer, please follow the general instructions below.

**To read on Nook and most other e-readers:** Download the .epub version of the file to your desktop or laptop. Then copy and paste the file from your downloads into the library folder of your e-reader. Refresh your device.

**To read on a Kindle device or Kindle apps on other devices:** Download the .mobi version of the file. If prompted to select an app, select Kindle. To transfer from a desktop or laptop to a Kindle, either download and email the file to your personal address, or directly to your Kindle's email address, available under "Manage Your Content and Devices" then "Preferences" on Amazon.com. If the book is not visible in your library, refresh your device.

**To read on your laptop or desktop:** Simply click to download the .pdf version of the file and read using your preferred program.
